## BOOK SYNOPSIS

Group Activities for Families in Recovery offers therapists a wealth of activities designed to help families struggling with addiction address problem areas of functioning, and ultimately shift from dysfunctional patterns to healthy living. Written by expert practitioners in family-oriented substance abuse treatment, this text focuses on group therapy as a key component to treatment. The activities are varied and include topics presented through expressive arts (drawing, writing, acting), game-playing, problem solving, enactments, worksheets, and roleplaying. The activities can be used individually, incorporated into another program, or stand alone as a 16-week (or longer) program. They can also be adapted for use in groups where children or present, or for adult-family groups.
