BOOK SYNOPSIS

A rip-rollicking space opera from Madeleine Oh. Rand Farrar hires a vampire, Drak Varna, as body guard as protection from bounty hunters, never expecting to become a vampire himself in the process. Now the two vampires need willing human donors so they hire Ferda Wallace, a veteran navigator and pilot who has other talents and connections and proves to be a valuable crew member, even if she does convince them, despite Rand's misgivings to risk the ship and themselves to break a blockade on a pioneer planet. From there the trio embark on a series of galactic adventures, ferrying cargoes, avoiding pirate attacks, acquiring a succession of additional crew members/donors, reconnecting with old friends and acquaintances and always avoiding the steadfast and determine bounty hunters who seem hellbent on pursuing Rand across the galaxy... Will nothing convince them to stop their relentless pursuit?
